Subject: NWS to Issue National Tsunami Warning Center Routine  
Communications Tests for the East and Gulf Coast on July 5, 2022

The NWS National Tsunami Warning Center (NTWC) and coastal NWS Weather Forecast Offices (WFOs) will perform routine monthly tsunami communication tests to ensure end-to-end readiness of NWS dissemination software and hardware on Tuesday, July 5, 2022, for East and Gulf Coast states.

The intended recipients of these communication tests include designated national focal points, state/territorial warning points, coastal WFOs, U.S. Coast Guard and critical military dissemination points.

Each test message will be clearly identified as such, and will be consistent with the product changes implemented by Service Change Notice (SCN) 18-94: Changes to Valid Time Event Codes (VTEC) and Event Tracking Numbers (ETNs) for Domestic Tsunami Test Products: Effective April 1, 2019:

[https://www.weather.gov/media/notification/pdfs/scn18-94vtec\\_tsunami.pdf](https://www.weather.gov/media/notification/pdfs/scn18-94vtec_tsunami.pdf)

VTEC codes for the test messages will start with the /T fixed identifier versus /O for operational messages. To provide additional assurance that a test message is not inadvertently distributed as an actual Warning/Advisory/Watch product, ETNs for the test messages will begin with 9 as the leading digit of the four character code.

The text products affected by routine monthly tsunami communication testing are the national tsunami products issued under the following Advanced Weather Interactive Processing System (AWIPS) Product Identifiers (PILs) and World Meteorological Organization (WMO) Identifiers (IDs):

| NTWC Product<br>-----                                                                     | AWIPS PIL<br>----- | WMO ID<br>----- |
|-------------------------------------------------------------------------------------------|--------------------|-----------------|
| Segmented Tsunami W/W/A<br>for U.S. Atlantic Coast<br>Gulf Coast and Canada<br>East Coast | TSUAT1             | WEXX20          |
| Public Tsunami W/W/A<br>for U.S. Atlantic Coast<br>Gulf Coast and Canada<br>East Coast    | TSUATE             | WEXX30          |

Routine tsunami communications testing will continue monthly. WFOs taking part in the national monthly tsunami communications test are listed below by NWS Region:

NWS Eastern Region:

Boston, MA (BOX)  
 Caribou, ME (CAR)  
 Charleston, SC (CHS)  
 Gray/Portland, ME (GYX)  
 Mount Holly, NJ (PHI)  
 Newport/Morehead City, NC (MHX)  
 New York, NY (OKX)  
 Sterling, VA (LWX)  
 Wakefield, VA (AKQ)  
 Wilmington, NC (ILM)

NWS Southern Region:

Brownsville, TX (BRO)  
 Corpus Christi, TX (CRP)  
 Houston/Galveston, TX (HGX)  
 Jacksonville, FL (JAX)  
 Key West, FL (KEY)  
 Lake Charles, LA (LCH)  
 Melbourne, FL (MLB)  
 Miami, FL (MFL)  
 Mobile, AL (MOB)  
 New Orleans, LA (LIX)  
 Tallahassee, FL (TAE)  
 Tampa Bay Area, FL (TBW)
